

claim 5

I claim

~~What is claimed is:~~

1. A layered film sheet for coating a sheet-like ~~subject~~ <sup>subject</sup>,  
comprising ~~in which~~ an embossed polyvinyl chloride film ~~exists~~ as an  
5 outermost layer and an EVA film ~~serves~~ as an innermost layer  
to be in direct contact ~~with~~ <sup>with</sup> the subject when ~~the film sheet~~  
~~is~~ folded to coat the subject, ~~with~~ <sup>and</sup> a low density polyethylene  
film, an EVA film and a polyester film being intermediately  
10 inserted between the ~~two~~ <sup>outermost and innermost</sup> layers, in due order from the  
outermost to the innermost layer, said LDPE film being bonded  
to the outermost layer via a water-miscible acryl-based  
adhesive, said polyester film being bonded to the innermost  
layer via a water-miscible acryl-based adhesive.
